THE VENUE FOR 23RD, 24TH, 25TH

CENTRAL TEJO

📍 Av. Brasília, 1300-598 Lisboa

Located on the banks of the Tagus River in Lisbon, **Central Tejo** is an iconic industrial complex that played a crucial role in the electrification of Portugal during the 20th century. Originally built as a **thermoelectric power station**, it supplied electricity to the city and surrounding areas, shaping the modern urban landscape. **Today**, Central Tejo houses the **Electricity Museum**, offering visitors a fascinating journey through the history of energy production, industrial heritage, and its impact on society. With its striking architecture and rich cultural significance, it stands as a landmark of Lisbon's industrial past and a center for learning and innovation.

ATTENTION: Students with 4 days ticket, the venue for 25th and 26th, the location can be found in the next page.
